

LG Cloud Device All-in-One Thin Client

23.8" All-in-One Thin Client for Healthcare 24CR67

24CR670W / 24CR670N / 24CR670I
24CR671W / 24CR671N / 24CR671I

- Compliant with Medical Standards (CE MDR, FDA)¹⁾
- Dual-band RFID (Compatible with Imprivata)
- 23.8" Full HD (1920 x 1080) IPS Display
- Quad-core Processor²⁾ & Full HD Webcam (Push-pull Type)

Engineered for Healthcare

Compliant with Medical Standards (CE MDR, FDA)

The white design of the 24CR67 series makes it easy to spot dust and blood in hospital environments where cleanliness is crucial. It also complies with relevant medical standards, including CE MDR, FDA, and even IEC 60601 for medical electrical equipment to ensure safety and reliability in the healthcare field.

Identity Management for Medical Staff

Dual-band RFID

The 24CR67 series features an RFID-based security system to safely enable personalized thin client use for multiple users, making it the optimal choice for users on rotating shifts. Having complete control over authorized logins prevents sensitive information from being leaked.

Simplified Usability

IPS Display | Multi Display Set-up³⁾

The 24CR67 lets multiple users simultaneously view critical information comfortably and concisely on a single screen thanks to its vivid 178-degree wide-angle IPS display. It can further support up to two extra 4K monitors with multi-display setup for those needing to view multiple streams of at a single glance.

23.8" All-in-One Thin Client 24CR66

24CR660W / 24CR660N / 24CR660I
24CR661W / 24CR661N / 24CR661I

- Dual-band RFID (Compatible with Imprivata)
- 23.8" Full HD (1920 x 1080) IPS Display
- Quad-core Processor²⁾ & Full HD Webcam (Push-pull Type)
- Compliant with Eco-friendly Standard⁴⁾ (Energy Star qualified, EPEAT registered)

Customized for Shared Use

Dual-band RFID | Ergonomic Stand

With seamless RFID-based security protection to safely enable personalized thin client accessibility and customizable ergonomic design that allows for individualized viewing adjustment, the 24CR66 is optimized for multi-user access environments.

Straightforward Performance

Quad-core Processor²⁾ | Multi Display Set-up³⁾ | Full HD Webcam

Accelerate workflow efficiency with its Quad-core processor and boost productivity with its multi-display setup that supports up to two 4K monitors. It also features a built-in Full HD webcam with speakers and microphone to allow for convenient video conferencing without additional equipment.

Truly Sustainable Design

Compliant with Eco-friendly Standard (Energy Star qualified, EPEAT registered)

The OS-equipped 24CR66⁴⁾ complies with the strict Energy Star technological specifications from the Electronic Product Environmental Assessment Tool (EPEAT) registration to minimize environmental impact and help promote a greener future for the planet.

1) Not intended for use in displaying radiological images for review, analysis, or diagnosis.

2) Detailed processor specifications may vary by model. Please refer to the specification details for each model on the reverse page.

3) The 24CR66/24CR67 series provides 4K support for up to two displays via USB Type-C™ and DisplayPort and can be used as a standalone monitor with laptop device via HDMI. Both USB Type-C™ and HDMI cables are not included and must be purchased separately.

4) The following 24CR661W, 24CR660W, 24CR661I, 24CR660I models meet the certification requirements as set by eco-friendly standards.
